- A community of satisfied users built up over 23 years including world class professional and amateur athletes

IMMUNOCAL BY THE NUMBERS

- 43 Years of research
- 23 Years sold by Immunotec
- 28 Universities involved in Immunocal research

IMMUNOCAL
^{the science of living better^{}

Immunocal is a unique, globally recognized and specially formulated, natural whey protein that has been clinically demonstrated to maintain your immune system.*
**KEY BENEFITS**

1. Maintains a strong immune system*
2. Supports the production of antibodies*
3. Helps increase muscle strength and enhance performance when combined with regular exercise*
4. CMP™ adds protective peptides*
5. RMF supports bone health by reducing calcium loss*

**GLUTATHIONE: THE MASTER ANTIOXIDANT**

The molecule glutathione is critical for healthy immune function. For a variety of reasons including aging, lack of exercise or poor training, poor diet, stress, and health challenges, our natural ability to produce glutathione becomes reduced, leaving defenses weakened.

**IT ALL STARTS WITH THE IMMUNE SYSTEM**

Having a strong immune system is linked to healthier aging, resistance to health challenges, and giving you an edge on some of the major health issues facing us today. Living in today’s world leaves many of us with a glutathione level. Maintaining glutathione is essential for your health.

**BIOLOGICAL VALUE (BV) OF SELECTED PROTEINS**

A higher BV means a protein is more easily absorbed.

**THE PLATINUM TRIPLE ADVANTAGE**

Immunocal Platinum has all the goodness found in Immunocal with two additional components added: CMP™ which adds protective peptides and RMF which supports bone health by reducing calcium loss. Maintaining good immune function is linked to healthier aging and resistance to health challenges resulting in improved quality of life.

Immunocal has powered elite professional and amateur athletes, worldwide, including multiple Olympian gold, silver, and bronze medalists. Informed-Choice is a quality assurance program that ensures the purity and quality of Immunocal; the sports nutrition industry, and supplement manufacturing facilities. The program certifies that all nutritional supplements and/or ingredients that bear its logo have been tested by the world class sports anti-doping lab, LGC.

Immunocal is a product that people of all ages can benefit from.
